METRO NATIONAL, TEXAS HERITAGE PARK

Designed with a Texan touch you can stroll through the park and learn a little Texas History along the way.

Texas Heritage Park was created and donated to the district by MetroNational operated by the Memorial City Management District.

Eric Ober is a Houston based artist. A Texas history buff, Ober developed the idea of using 3-D sculptures and silhouettes of Texas State symbols to give Texas Heritage Park a Southwest flavor.

The sculptures are cut out of solid steel plates to provide depth and character. Texas Heritage Park makes use of Memorial City Mall and Bally's parking lot.
