KILLEEN-TEMPLE MPO REGIONAL THOROUGHFARE AND PEDESTRIAN/BICYCLE PLAN

Wilbur Smith Associates developed a regional thoroughfare plan based upon thoroughfare plans from six cities, one county, and Fort Hood.

The plan defined a prioritized list of off- and on-road nonmotorized transportation facilities that form an interconnected regional network, as well as a series of pedestrian districts in which to focus investments in sidewalks.

Technical analysis, stakeholder involvement, and public meetings were used to develop the plan.
